IO-2

An online learning platform was created. 4 Modules were defined within the online learning platform. Modules 1, 2 and 3 were created to include the titles Before the Course, Course Content, Quiz and Following the Course. In Module1, the topics of technology selection and effective course design were included in online courses that will guide students with learning disabilities in online environments. In Module 1, technology selection and effective course design were included in the online courses that will guide those working with students with learning disabilities. Module 1 has been completed and module is ready to use.

Module 2 was created for digital tools and applications that teachers working with students with learning disabilities can use in their classrooms. In this module, the purposes of using digital materials and the online tools that teachers can create these materials are introduced. Module 2 has been completed and presented to users. Module 3 was created for the characteristics of students with learning disabilities and suggestions for teachers. In addition, the Design for Universal Learning (UDL) model was introduced for those working with students with learning disabilities. Module 3 has been completed and presented to users. Module 4, which will support students with learning disabilities in different areas is under completion.
